AND ALONG IS IN THE LEAD WHEN IT COMES TO RUNNING! THE BHT EVEN GOING TO BE A FIGHT!

HEH, IS THAT WHAT YOU THINK? OUR BOY MIGHT FALL BEHIND.

BOY'S JUST FOLLOWING MY DIRECTIONS, WORD BY WORD!

HEH, REALLY? I NEVER KNEW THAT OVERTAKING YOUR DOG TO FALL BEHIND WAS A STRATEGY!

I WAIT!

REACTOR A WAY TO PICK UP SPEED WHILE SAVING SOMETHING BY REDUCING AIR RESISTANCE.

GAELIC STREAM!

GAELIC STREAM?! WHAT THE HECK IS A GAELIC STREAM

Skip Stream: If there is an object A running at fast speeds with object B behind it, strong air resistance and a high pressure field will appear in front of object A. But on the other hand, weak air resistance and a low pressure field will appear behind object A, and that place is called Skipstream. Due to the low pressure in a skipstream, an object inside it will be sucked forward. Due to this, even if A and B have equal efficiency, B can save energy and gain acceleration and can overtake A. This is a technique that is used often in car racing when a car is trying to overtake the car in front of it on a straight track.

Of course none of this stuff could ever happen when dogs are racing, and the word Gaelic stream doesn't even make any sense

USING THE ACCELERATION FROM GALEUP STREAM, ROY LEAPS ON TOP OF THE DOB IN FRONT AND SWATCHES AWAY THE FRISBEE.

I said that the doggy world is the best place for the pet competition but the story got out of hand with I was brought to that chapter of the competition. The same story for the me.

Next chapter will be the detailed world of the pet competition etc...
